

"Where are you from?" Wherever you go.

Asian Pacific Islander (API AJET) was created during the summer of 2012 following many talks about the specific issues facing the API community.

This special interest group (SIG) aims to create a supportive environment for all APIs living in Japan. We also hope to increase awareness about API issues and inspire constructive dialogue among curious JETs and non-JETs. Furthermore, API AJET hopes to act as a tangible resource for anyone interested in understanding an API's unique perspective (as a foreigner) in Japan.

The group is open to all. Join to share, discuss, and learn about the API experience. Membership is free!

For more information, visit us at <http://api.ajet.net>, or email us at api@ajet.net.
